14th National & 5th International Conference of Botany

“Climate Change and Phytodiversity: Challenges and Opportunities”

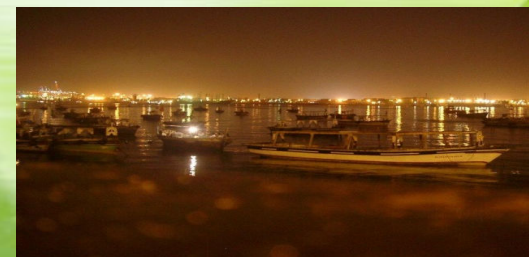

- ❖ Pakistan Botanical Society (PBS) is one of the leading societies that aim to cultivate, promote and disseminate knowledge of all branches of plant science
- ❖ Ever since its inception in 1968, PBS has grown steadily over the years and now has a vast membership of plant scientists from all over the country and abroad
- ❖ PBS provides an opportunity to active researchers to present their work and generate discussions for further planning of their research. PBS also publishes bi-monthly “Pakistan Journal of Botany”
- ❖ One of the major activities of the society is to organize National and International Conferences regularly
- ❖ So far the society has successfully organized 13 national and 4 international Plant Scientists Conferences. The 14th National and 5th International Conference of Plant Scientists will be held during January 15-18, 2016 at the University of Karachi, Karachi, Pakistan

Karachi is one of the mega cities of the world. It is the capital of the province of Sindh and the largest city of Pakistan. Located on the coast of the Arabian Sea and north-west of the Indus River Delta, Karachi was the first capital of Pakistan, and now serves as the cultural, economic, philanthropic, educational and political hub, as well as the largest port of the country. Karachi has an arid climate; the weather during January is slightly cool with temperature ranging from 10 to 26 °C in January.
