

## Obituary

### **Dr. Imran Ali Siddiqui**

(2<sup>nd</sup> April 1972 - 7<sup>th</sup> August 2006)

Dr. Muhammad Imran Ali Siddiqui, a faculty member of the Department of Botany, Government Degree College, Buffer Zone, North Karachi, Karachi, Pakistan died on 7<sup>th</sup> August 2006 at Liaquat National Hospital, Karachi. He was suffering from viral infection. The day Imran died was the day fixed for his wedding. May God Almighty shower his choicest blessings upon the departed soul and may his soul rest in peace in heaven. Amen. May God Almighty also give enough strength to his friends and members of his family to bear the loss.

Dr. Muhammad Imran Ali Siddiqui s/o Mr, Muhammad Ali Siddiqui was born on 2<sup>nd</sup> April, 1972 in Karachi, Pakistan. He obtained his M.Sc. degree in Botany in 1996 from the University of Karachi in the First Division. Imran worked under the guidance of Dr. Ehteshamul Haque and was awarded the degree of Ph.D. in Botany in 2002 from the University of Karachi for his work on the "Use of growth promoting bacteria in the control of root knot nematode and root infecting fungi of crop plants". Dr. Imran Siddiqui was awarded Post Doctorate Fellowship by the British Council and worked at the Rothamsted Research Experimental Station at Harpenden UK from March 2004 – February 2005 with Dr, Brian Kerry on the "Biological control of plant parasitic nematodes using selected isolates of *Pseudomonas chlamydosporium*".

Dr. Iran Siddiqui has made significant contributions on the biological control of root rot fungi and root knot nematodes of crop plants like chickpea, mungbean, sunflower, chilli, mashbean etc. His scholarly aptitude as a researcher can be gauged by the fact that he had started using detritus of mangrove (*Rhizophora mucronata*) vegetation collected from Karachi coast as organic substrate in the control of soil borne root infecting fungi and nematodes. Dr. Imran Ali Siddiqui was twice awarded research productivity allowance and stood 7<sup>th</sup> in position among the Pakistani scientists by the Pakistan Council for Science and Technology.

Dr. Imran Siddiqui has been a prolific writer. He has published 111 scientific research papers in journals of international repute besides editing a book "Essentials of Mathematical Ecology" with Dr. S.S. Shaukat, 2005 and in the preparation of computer programming in BASIC, FORTRAN and C++.
